

JU:MP AWARD PROGRAMME WE THINK YOU'LL BE INTERESTED IN THIS

We have sent you this pack to let you know about Join Us: Move. Play and the opportunity for you to access a small grant of between £500 and £5,000 to get your idea off the ground.

What is Join Us: Move. Play?

Join Us: Move. Play is a message from our children in North Bradford. It is the name of a social movement. These children have told us they want to be given opportunities to get involved in activities, they want their families to be active with them, they like to move and they like to play.

JU:MP is here to make it as easy as possible for these children, families and communities to be as active as they want to be by working with organisations, groups, families and policy makers to make it happen.

What is the JU:MP Award programme?

Children have told us they want to get out and have fun, but can struggle to know how or where. So we're asking you to invest your time, expertise and passion to put on activities for these children, and in return we may be able to support you financially to do this. (Subject to meeting criteria.)

We have small grants of between £500 and £5,000 available for constituted organisations to apply for.

Where do I find out more?

This pack should contain all you need to know! But if you have a question or are not quite sure whether the Award programme is for you, our Community Engagement Managers are at the end of the phone or on email - their details are on the information and guidance document.

We also have some information and networking sessions coming up. Find out when these are from your Community Engagement Manager or the website: www.joinusmoveplay.org

You can get involved in the Join Us: Move Play movement by leaving your details on www.joinusmoveplay.org and someone will be in touch.

Or you can help by spreading the messages which we put out through social media:
