

Police Sergeant Claire Stothers
**Bradford District Integrated
Offender Management Team
and Substance Misuse
Coordinator.**

Offender Management

1. Neighbourhood Policing
2. Integrated Offender Management

IOM

156 Prolific Offenders
Police Team
Partnership Colleagues

Approximately 62% IOM
offenders currently in HMP
custody < 4 years sentence.

Offender management teams in
prison – Police and Probation.

Pathways to Reducing Offending:

Accommodation

ETE

Substance Misuse

Physical / Mental Health

Financial matters

Children / Family support

Attitude, Thinking, Behaviour

Additional Interventions

Restorative Justice

Class A Drugs testing in custody after arrest.

Out of court disposals for non prolific offenders.

How can you help:

- Work with NPTs.
- Report any suspicious activity via 101 or intelligence via Crimestoppers 0800 555111 (anonymous service – charity run).

Jess Clayton

Force Drugs Coordinator

Key responsibilities

- Ensure a consistency approach to drug offences across the force
- Simple possession – organised crime
- Reviewing process/policies across the Force
- Working alongside colleagues and partners to increase awareness around drug trends, concerns
- Encourage intelligence submissions
- Safeguarding the vulnerable – e.g. DAG, ‘Not my child’ cuckooing
- Reduce reoffending, ensuring correct partners are working with our offenders and included in our OCG meetings
- Campaign work around raising the awareness – e.g “Drugs fund....”
- Partnership working – e.g. synthetic cannabinoid referral process, NA in PCSO training

County Lines/Vulnerable People and Drug Gangs

- Raising awareness – inputs to colleagues, partners and public
- Interventions in schools – inputs, EI teams
- Targeting hard to reach communities
- Encourage multi-agency approach
- ST Giles Trust – Gang Peer Advisor Programme

Gaps/issues

Drug related deaths mapping

- To identify hotspot areas for drug deaths, drug dealing and need for harm reduction advice.
- Also allows us to monitor drug trends of concern.

Youth work

- There appears to be a gap for support between a child who is misbehaving and those involved in serious crime
- Parenting has changed/social media - children are monitored less/have less support in the home environment, lack of role models
- How children are recruited into CL/CCE activity

Support for victims involved in crime

- Those being exploited by gangs – victim or suspect?
- E.g. cuckooed victims – fear of being arrested or repercussions of working with the Police, OCG's seem to have identified addresses of placed VA's rather than the VA's themselves
