

What would have happened if

Often when I can't go to sleep at night
I lie in bed and think

What would have happened if

For example, what would have happened if,

The motor car had not been invented?

Would we now have Bicycle Rages
or Multi Pedestrian Pickups when it's foggy.

Or what would have happened if

The dinosaurs were still alive,

Would the Council put up signs, that said
Do not let your Brontosaurus foul the footpath
or would the RSPCA run campaigns that said,
T. Rex's are for life not just Christmas

Or what would have happened if

We were Nocturnal

Would we jet off on our holidays

In search of moonier climes

Or would the witching hour be mid-day.

Or what would have happened if

Harry Webb had changed his name

How many Christmas No. 1's would he have had

Or would he have formed a group with Roy Dwight

or Robert Zimmerman

Trouble is though I still can't get to sleep

with those thoughts spinning in my head

so I turn on the Radio and listen to

The Traffic reports, programmes about dinosaurs and

Sunny Places
